

MOTOTRBO[™] DP3000e SERIES

YOU'RE READY FOR ANYTHING

With this dynamic evolution of MOTOTRBO digital two-way radios, you're more agile, better connected and safer. The DP3000e Series is designed for the mobile professional who needs effective communications. With a compact design, plain or display models, IMPRES[™] energy and high performance integrated voice and data, these next-generation radios deliver comprehensive connectivity to your organisation.

AGILE

The MOTOTRBO DP3000e Series is a tough and compact ETSI DMR Standards compliant digital radio. Its small form factor makes it conveniently portable, with an efficient short antenna that won't get in your way. It's tested to military standards for extreme ruggedness, and is rated IP68 for almost complete immunity to dust and water. It won't let you down even in harsh environments.

CONNECTED

The DP3000e Series delivers operations-critical voice and data communications. Bluetooth® audio lets you talk without wires, integrated Wi-Fi® enables remote software updates, and indoor and outdoor locationtracking capabilities give you total visibility of your resources. The full-colour display model provides easy viewing of additional information such as contact lists, text messages and radio status. With support for trunking as well as legacy analogue technology, you can keep your organisation connected as it grows.

SAFE

Safeguard your staff with responsive push-to-talk technology. The prominent orange emergency button on the DP3000e Series summons help with one touch, using Transmit Interrupt to clear a channel when necessary. An integrated accelerometer senses if you've fallen, and can initiate a call for assistance.

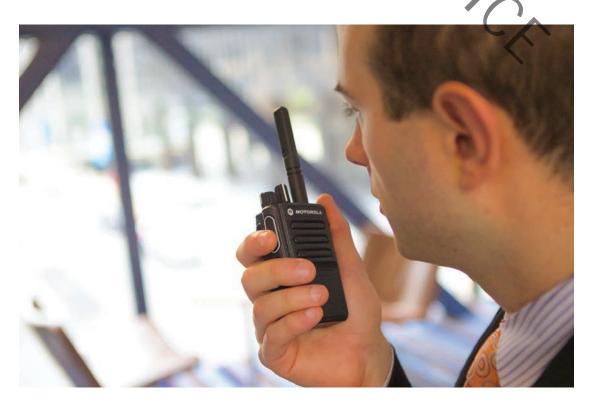

WHAT'S NEW IN THESE NEXT GENERATION RADIOS

- Non-display and 5-line colour display models
- Integrated accelerometer for optional Man Down feature
- Bluetooth[®] 4.0
- Indoor location tracking
- Multi-constellation GNSS for increased location accuracy
- Integrated Wi-Fi
- Over-the-air software updates
- IMPRES energy
- Enhanced audio quality
- Improved expandabilit
- Better waterproofing
 - (IP68)

BLUETOOTH

Connect to your radio without wires, for extra comfort and safety. A full portfolio of Bluetooth headsets and earpieces is available.

ENERGY SOLUTIONS

Make sure your radio is powered and charged properly, with our range of energy solutions including IMPRES technology. Includes custom insert for IMPRES chargers.

COVERT ACCESSORIES

When you need to stay in touch discreetly, choose from our range of covert audio accessories. From clear tube earpieces to virtually invisible wireless in-ear units.

Improve usability with a Remote Speaker Microphone (RSM). Choose from standard, heavy duty and noisecancelling models, with or without secondary earpiece connector.

EARPIECES

For all-day comfort, choose from our range of earpieces. Lightweight or heavy duty, discreet or rugged, with or without built-in hearing protection.

In a noisy workplace, you need to protect your workers' hearing. Whether it's heavy duty noise reduction or innovative temple transducer technology, our headsets can help.
